# Using object awareness 800

## Work more naturally

The interactive whiteboard's cameras detect the size of your touch and assign different tools accordingly. This enables you to use your finger or pen to write or select, and your palm or fist to erase.

Click the box below to view object awareness in action.

Use the pen to write, your finger to drag and your palm to erase.

# Gestures

Click the buttons to view the gestures.

# Lockable pen option

Play the video file to view the gesture.

If you want to use your SMART Board interactive whiteboard with a sock, Koosh<sup>®</sup> ball, tennis ball or pointer, enable the Lockable pen option.

Press and hold a pen color button until it flashes. This locks the interactive whiteboard so you can use any tool, not just your finger or pen, with the interactive whiteboard. Use your tool of choice to write, or press any toolbar tool to change the tool's function.

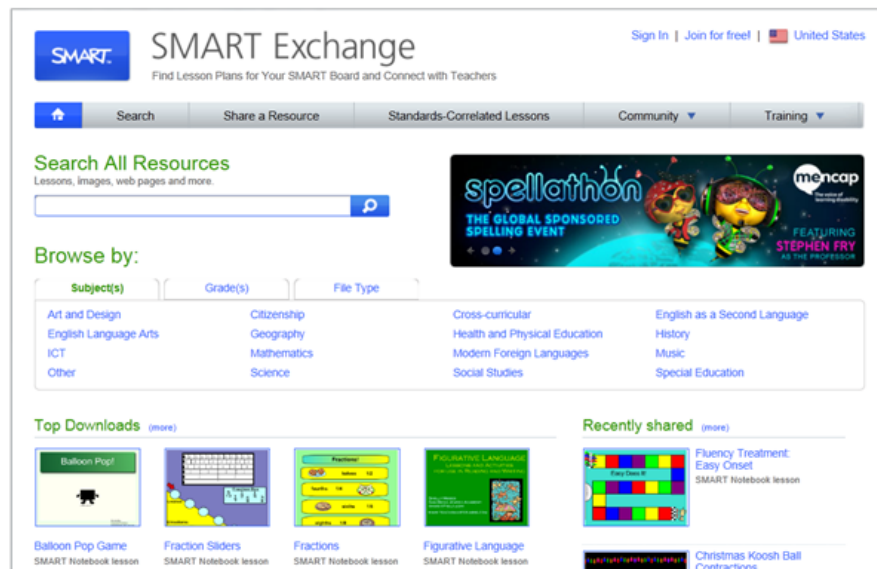

Press another pen color button to disable the Lockable pen option and go back to using your pen, finger and palm.
