MISSION STATEMENT

We will promote individual learning by providing educational and social environments, maximizing measurable academic and vocational success as well as interpersonal skills that prepare students for becoming effective citizens. To achieve this outcome, we will adhere to the best teaching practices, model our expectations daily, and insist upon respect, responsibility and self-discipline being demonstrated with the Shepherd School community.

We will provide appropriate interventions empowering each student to become a life-long learner.

ASSESSMENTS USED AT SHEPHERD HIGH SCHOOL

Criterion Reference Test measures progress towards meeting state standards in Science. Shepherd High School was a pilot school for this test taken in the spring of 2003. The sophomores take this assessment in March. This test will compare our students' achievement on the State of Montana's standards.

PSAT is administered to juniors interested in furthering their education.

ASVAB is a vocational assessment for juniors administered by the military.

ACT PLAN TEST is a career assessment test given to sophomore students.

ACT PLUS TEST is a free opportunity by the State of Montana and Shepherd High School for all juniors to take the ACT. The ACT is an admissions assessment for colleges and universities to determine a student's readiness for college.

MAPS Assessments is a comprehensive assessment aligned with the Montana state standards and benchmarks. The results give us information on mastered skills and help us to place students in classes where they can get the extra help needed to be successful in high school.

HIGH SCHOOL GOALS

Our school community will provide a safe and educationally productive school environment.

All students will improve reading skills across the curriculum as measured by the 2014 NWEA MAPS Assessments.

All students will improve math problem solving skills across the curriculum as measured by the 2014 NWEA MAPS Assessments.

Students will show respectful behavior through consistent standards and expectations from the staff.

DESIRED LEARNER RESULTS

Students will meet state standards in all subjects

Students will become "life long" learners

Students will accept responsibility for their own behavior

Students will be able to set and work toward achieving goals

WE BELIEVE IN

*Educating individuals to be quality citizens and productive members of a community

*An environment conducive to productive learning

*Nurturing, guiding and challenging students

*All individuals being entitled to treatment with dignity and respect
